HB667 – THE LEWIS AND CLARK HERITAGE TRUST

Representatives,

- Ongoing income from the trust is vital to Traveler's Rest State Park in Lolo,
- Montana as part of efforts to replace federal and state funds lost after the Lewis and Clark Bicentennial and thereby avoid program and service reductions.

Traveler's Rest State Park, on the Lewis and Clark and Nez Perce Historic Trails, has firmly placed Lolo on state, national and even international maps as a place to see and walk the ground of our nation's history.

Existing and broadening interpretative programs will further this resource, drawing even more visitors to the Lolo area.

Please support funding for the Trust.
